To whom it may concern

This is to state that the China International Exchange Centre of Traditional Chinese Medicine, State Administration of Traditional Chinese Medicine fully supports the master programme currently being introduced by the network of European Universities piloted by Porto University, Hamburg University, and the Heidelberg School of Chinese Medicine. The programme was established in accordance with the Heidelberg model of Chinese Medicine and the ISCMA standards and can be regarded as the future model to integrate Chinese Medicine in Western health care systems and research.

We shall highly recommend both Western and Chinese institutions of higher education to promote and cooperate in this matter.

Sincerely yours,

Yulong Shen
Director-General

China International Exchange Centre of Traditional Chinese Medicine,
State Administration of Traditional Chinese Medicine
